All Storm AXS Keypads incorporate the proven STORM switching technology ensuring rapid, reliable and responsive data entry. Specified to survive in different service environments, ranging from exposed, unsupervised public environments, to general service / indoor installations. Keypads in the STORM AXS range are dimensionally and electrically interchangeable. This allows users, entering codes at all outdoor or indoor access points, to establish and maintain familiarity with the keypad features. Applications requiring two door control or alarm and door monitoring support require the Storm AXS StrikeMaster DE Keypads.

Whilst every effort is made to ensure details are correct at time of print, specifications are subject to change without notice.
