

Touchstone Sleeves™

Protective sleeves to meet your needs

Touchstone Sleeves™ from Polyco are Knitted sleeves made with 100% Kevlar® aramid fibre.

Kevlar® has an inherent strength protecting against cuts, slashes and abrasion, and is heat retardant making it very practical in industries where burn protection is needed. Offering a high cut resistance to weight ratio, Touchstone Sleeves™ deliver exceptional performance and are seamless, soft and extremely comfortable, allowing for prolonged use without causing irritation. Available in various lengths, they offer an optimum balance of dexterity and protection. There is also the choice of a thumb slot, to provide extra protection to the wrist area. Touchstone Sleeves™ can be machine washed or dry cleaned.
