NORTON CLIPPER DUO EXTREME +

The new DUO EXTREME+ is the fastest Norton Clipper diamond blade. Manufactured in our Centre of Excellence based in Luxembourg, the new exclusive enhanced segment technology brings many benefits:

FEATURES

- Very high & uniform density across the whole segment.
- New specification can be designed with new new process, with impressive free-cutting performance.
- High density and improved retention of diamond grits in the segment.
- Innovative designs for smoother cutting.

BENEFITS

- Upto +75% stronger alser-welding torque resistance vs. traditionnal process.
- 100% warranty against segment loss.
- The new Dynamic DUO EXTREME+ is the fastest cutting diamond blade in Norton Clipper range.
- Up to +20% faster than previous version
- Increased segment height and improved specification bring up to +20% longer product life.
- Reduced vibrations for greater comfort.
- Improved cut rate reducing user fatigue.
- Higher quality precision cut.

SPECIFICATION

- Innovative U-shaped segment design.
- 15mm high segments with trapezoidal shape for improved comfort.

APPLICATIONS

- Concrete & reinforced concrete
- Hard materials
- General building materials

DUO EXTREME+ RANGE

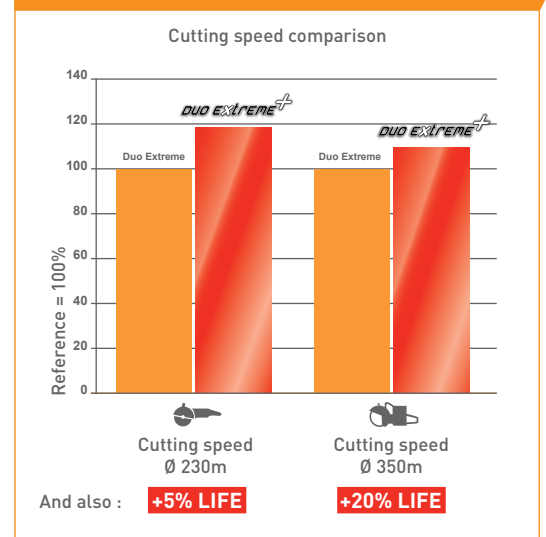

| Diameter (mm) | Bore (mm) | Segment H / W | Machine | EAN 13 Code | Article No. |
|---------------|-----------|---------------|---------|----------------|--------------|
| 230 | 22,23 | 15/3,0 | | 5450248 569299 | 701846 47723 |
| 300 | 20 | 15/3,0 | | 5450248 570745 | 701846 47787 |
| 300 | 25,4 | 15/3,0 | | 5450248 570752 | 701846 47788 |
| 350 | 20 | 15/3,2 | | 5450248 570769 | 701846 47789 |
| 350 | 25,4 | 15/3,2 | | 5450248 570776 | 701846 47790 |
