

## Starrett 10MEH-150 Student 150mm (5-3/4") Combination Square (663-768)

### Graduation 1/2mm & 32nds One Side, mm & 64ths Reverse Side

#### Description

These tools were designed to train and develop apprentices to lay out and check their work more efficiently. The combination square is far superior to clumsy, old-style solid workshop-grade squares that are still being used in some vocational schools and apprenticeship programs around the world.

The student's advantages are:

#### Advantages

- Rugged, cast iron square head will outlast cheap plastic and die-cast imitations.
- Accurate, hardened and tempered square blade offered in inch, millimeter, and inch and millimeter combined.
- Reversible lock bolt allows the blade to be turned over or end-for-end so that all four graduated edges may be used.
- The combination square, as its name indicates, handles many jobs, saving the apprentice from buying more individual tools. This combination square can be used as a try square, 45° miter, a depth gage, a height gage, a layout tool, and as a rule.
- Optional center head is available to increase the versatility of this universal measuring tool.
