## Visual Tagging – Nanotag

Nanotag Inserts

Insert with Safe working load (SWL) and "Next Inspection Date Due" to clearly display latest safety, maintenance and identification information at the point of use.

A selection of coloured Safe Working Load inserts are available providing the option of additional visual qualification.

Designed to operate alongside Nanotag holder.

Helps comply with legislative requirements and good practices of:

- ▶ Inspecting and maintaining equipment at suitable periods as deemed appropriate by a risk assessment
- ▶ Providing appropriate information to employees to account for the item of equipment's safe use e.g. Safe Working Loads (SWL)
- ▶ Ensuring employees are informed if equipment is not safe to use
