Beam Distance	33m
Runtime	9h 45min

When having white light is just not enough for you, look no further than our Quad Color TX10. It has our Utility Beam diffused flood in white, red, green, and blue.

- Red - Night Vision / Anti Glare Fish / Animals can not see red (fishing & shooting) Marine differentiates from white at night
- Green - Night Vision / Anti Glare Used by Military for night vision and map reading (much clearer under green light)
- Blue – Hunting / Tracking / Medical / Forensics Blood shows up better under blue light / Veins / Blood residue / Vision in Fog
- UV (on PX10 only) Extracting hidden info (holograms, invisible markings) DNA, Brake fluid, fuel, refrigeration fluids (leaks)
