

DEWALT XR FLEXVOLT 125mm X 6mm Metal Grinding Disc

DT99580-QZ

- Lasts up to 4X longer life versus traditional aluminium oxide discs
- Constructed from ceramic high density abrasive grains
- Provides up to 35% additional runtime for enhanced durability
- 35% faster cuts saving you time and effort

Description:

The DEWALT XR FLEXVOLT Metal Grinding Disc has been engineered for extreme repetitive heavy duty metal cutting. Constructed with professional high performance dense abrasive ceramic grains for a tough durable concentration, which lasts up to 4x longer than traditional aluminum oxide discs. The grinding disc also provides 35% additional runtime and faster cut, saving you time and effort. Ideal for grinding ferrous and non-ferrous metals, rebar, welds and surface preparation.
