ABSORBICA-Y FALL ARREST KIT

ABSORBICA-Y FALL ARREST KIT is a ready-to-use kit designed to protect against falls. It is optimized for work at height requiring connecting to metal structures or large-diameter cables and bars. The kit contains a NEWTON EASYFIT fall arrest harness, a double lanyard with an 150 cm ABSORBICA-Y energy absorber with MGO large-opening connectors, an OK TRIACT-LOCK carabiner, a CAPTIV positioning bar, and a BUCKET bag. It is available in two sizes.

Short Description Kit for protection against falls with NEWTON EASYFIT harness and ABSORBICA-Y 150 MGO lanyard

Selling Points

- Simple to use, and effective:
 - NEWTON EASYFIT harness that is easily donned thanks to its EASYFIT design: a vest ensures the harness keeps its shape and the FAST automatic buckles (sternal and leg loop) allow the harness to be donned with both feet on the ground
 - ABSORBICA-Y lanyard with elasticized arms to avoid hindering progression
 - stowage system for the MGO connectors on fall arrest lanyards, on each shoulder strap. In case of a fall, this system releases the MGO connectors and allows the absorber to be deployed
 - BUCKET bag allows the kit to be stored and its contents identified
- Contents of kit:
 - a NEWTON EASYFIT fall arrest harness (European version)
 - a double lanyard with an 150 cm ABSORBICA-Y energy absorber (European version) with MGO large-opening connectors
 - an OK TRIACT-LOCK carabiner and a CAPTIV positioning bar
 - a 25-liter BUCKET bag
- Available in two harness sizes (sizes 1 and 2)
